

StemEnhance[®] ULTRA

StemEnhance[®] ULTRA assists the body's inherent ability for long-term self-renewal by supporting the body's natural release of bone marrow stem cells.* It concentrates and combines extracts from nature's most primitive superfoods, fresh water microalgae and marine macroalgae, providing the body with the ultimate in stem cell support.*

1. StemEnhance[®] ULTRA is the result of 18 years of research and constitutes the most efficacious and scientifically proven stem cell support product in the market.
2. Through multiple clinical trials StemEnhance[®] ULTRA was documented to optimize stem cell function in the body by increasing the number of both CD34+ stem cells and Endothelial Progenitor Cells (EPCs) in the blood circulation, supporting optimum renewal and repair of tissues and organs.
3. StemEnhance[®] ULTRA also contains Mesenkin[®] that was shown to increase the blood concentration of G-CSF that plays a key role in stem cell release.*

STUDIES/RESEARCH

While StemEnhance[®] was shown to increase the number of both CD34+ stem cells and Endothelial Progenitor cells immediately after consumption, fucoidan from Undaria pinnatifida was documented to increase the number of circulating stem cells over time. The novel ingredient Mesenkin[®] was documented to increase the blood concentration of G-CSF and trigger the release of stem cells from the bone marrow and the migration of stem cells into tissues.

While placebo did not show any significant effect on the number of circulating stem cells, StemEnhance triggered a transient increase in the number of CD34+ cells (25%) and a long-lasting increase in the number of circulating EPC (>75%)

Consumption of fucoidan from Undaria pinnatifida led to an increase in the background level of circulating stem cells.

FEATURES & BENEFITS

FEATURES	BENEFITS
StemEnhance [®] (AFA concentrate)	shown to support the release of stem cells from the bone marrow*
Fucoidan (undaria pinnatifida)	a marine alga well known to support the immune system. Cerule's fucoidan comes from Undaria harvested from pristine ocean environments. Fucoidan from Undaria pinnatifida has been documented to increase the number of circulating stem cells.*
Mesenkin [®] a unique extract from Spirulina	isolated through a patented extraction process; Mesenkin supports the release, migration and homing of stem cells by balancing key messengers involved in stem cell function.*

INGREDIENTS AND LABEL

StemEnhance[®] ULTRA is the Ultimate in stem cell support containing a proprietary blend of highly concentrated extracts including Fucoidan and Cerule's own exclusive patented ingredients StemEnhance[®] and Mesenkin[®].

Mesenkin, an extract from Spirulina, further enhances this synergistic blend by balancing key messengers involved in stem cell function.*

- Supports healthy cell renewal and maintenance*
- Supports the body's innate ability to self-heal*
- Supports the body's natural release of stem cells*

Caution: Use only as directed. Do not take this product if you are pregnant or nursing. Consult a healthcare professional before use if you have existing medical conditions. Not intended for children. Store in a cool dry place.

StemEnhance[®] ULTRA

ULTIMATE STEM CELL SUPPORT[®]

60 CAPSULES
DIETARY SUPPLEMENT

Suggested Use:
Take 2 capsules 1-2 times daily.

Supplement Facts
Serving Size: 2 capsules
Servings per container: 30

Amount per serving	
StemEnhance[®] ULTRA Proprietary Blend	
StemEnhance [®] (Aphanizomenon flos-aqueae concentrate)	475 mg†
Mesenkin [®] (Spirulina platensis extract)	475 mg†
Fucoidan 80% (Undaria pinnatifida extract)	75 mg†

† Daily value not established

Other Ingredients: Hypromellose (Vegetable Capsule), Organic Rice Concentrate.

Product does not contain dairy, wheat, gluten, peanuts, soy or corn allergens. No artificial flavors or colors.
100% vegetarian and non-GMO.

Q&As

What is StemEnhance® ULTRA?

StemEnhance® ULTRA concentrates and combines extracts from nature's most primitive superfoods, fresh water microalgae and marine macroalgae, providing the body with the ultimate in stem cell support.*

Why is StemEnhance® ULTRA beneficial?

StemEnhance® ULTRA assists the body's inherent ability for long-term self-renewal by supporting the body's natural release of bone marrow stem cells.*

What are stem cells and why are they considered important?

"The primary roles of adult stem cells in a living organism are to maintain and repair the tissue in which they are found." <http://stemcells.nih.gov/info/basics/4.htm>
Furthermore, stem cells released from the bone marrow can migrate into various tissues where they contribute to the process of tissue repair.*

Can StemEnhance® ULTRA be consumed with other Cerule® products and other nutrients?

Yes, the Cerule products can be consumed together and were designed to enhance the beneficial effects of each other. We know of no known concerning interaction between the Cerule products and other nutritional supplements.

For a full list of StemEnhance ULTRA Q&As, go to Cerule Back Office or ask the IBO that provided this Product Fact Page for assistance.

SUGGESTED USAGE

Take 2 capsules, 1 to 2 times daily.
For adult consumption.

FURTHER DETAILS

No dairy, wheat, gluten, peanut, soy or corn allergens
No artificial flavors or colors
100% vegetarian and vegetable capsules
Non-GMO

Pregnancy and nursing are considered special conditions. We recommend that your attending doctor(s) be made aware of any and all supplements consumed during this time. At this time, we do not advise StemEnhance® ULTRA consumption during pregnancy.

If you have any health condition and/or are using any medication then consult your attending health care provider before consuming any nutritional supplement.
